Summary

Engineering Graduate with **leadership** training and experience with academic training at the PUCIT. Proven skills in problem solving, organization, research, project management, database and wide range of programming languages such as C/C++, C#, Java (Basic), Mobile Computing (Android), Python and ROR. Able to provide employers with administrative support and professional communication skills. Also have hand practice in graphic designing in illustrator.

I have been a high achiever in academics – Topper of the batch in 1st semester, prestigious PEEF scholarship holder and got laptop from prime minister laptop scheme.

Career Objective

Looking to secure a position in a software industry, where I can bring immediate and strategic value, develop current skillset further and to be a radical employee of the organization.
